Change of Examiner

The prosecution of this application has been transferred to Examiner Gary C. Vieaux from the docket of Examiner Jeremy R. Elder. Any inquiry concerning this
10 Office Action or earlier communications should be directed to the current Examiner of record. Current contact information is provided in the last section of this communication.

Election/Restrictions

15 This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1: Figure 1;	Species 2: Figure 4;
Species 3: Figure 5;	Species 4: Figure 6;
Species 5: Figure 8;	Species 6: Figure 10;
20 Species 7: Figure 11;	Species 8: Figure 13;
Species 9: Figure 15;	and Species 10: Figure 17.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification
5 of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration
10 of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably
15 distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
